

Educational needs survey

This form is intended to gather data that will help us to determine your educational need for technology and to begin to identify possible solutions.

In purely educational terms, what is the current challenge / problem OR What would you like to improve?

Describe how your ideal class experience might look with this educational need/issue addressed

Which of the following categories would you say describes your educational need?
(Feel free to choose more than one)

- Sharing content
- Communication
- Management of students
- Assessment
- Practical activities
- Reflection / Feedback

Please list any specific criteria that would need to be met in addressing this issue
E.G. must support 350+ simultaneous users

Please list any educational technologies that you are aware of that might help to address this problem/need.

(Either types of technology – e.g data projectors – or specific tools – e.g. Moodle – are fine)
